There are so many paths to explore.*

What is Progressive?

We're one of the nation's leading automotive insurance companies. But that's not all. Progressive is a mindset — a revolutionary concept that's changing how our industry works and how people think of it.

It's more than our company name. It's how we think — about everything.

It's more than a group of people working in offices. It's 25,000+ sharp, innovative minds that create auto insurance products and services the world has never seen before.

It's more than a typical workplace. Progressive is for visionaries. Those who challenge perceptions. Those who want to create a better reality — for our customers and employees.
